FEATURES

- Stable chlorine content on long-term storage
- Broad spectrum activity
- Breaks down the toughest food stains

AREAS OF USE

- Dairy processing plants
- Food & beverage manufacturers
- Abattoirs
- Small goods manufacturers
- Poultry & egg processors

DESCRIPTION

BIOSAN is a chlorinated general purpose cleaning powder with high active detergency. It combines the power of surfactants and sequestering agents with sanitising effect of chlorine which reduces efforts and time of cleaning operations. It is recommended for use in areas where a high degree of sanitary cleanliness is required with good bacterial control.

DIRECTIONS FOR USE

Cleaner in Food Processing Areas: Use at a 12g/L concentration with water (350ppm chlorine).

Surface Sanitiser: Use at a 12-24g/L concentration with water (350-700ppm chlorine).

Immersion Cleaning and Sanitising: Use at a 24-36g/L concentration with water (700-1000ppm chlorine).

Apply to a surface to be cleaned. Allow to act for at least 15 minutes and rinse the surface with potable water after use.

Consult your Jasol representative for further technical information.

SAFETY INFORMATION

BIOSAN is classified as Hazardous according to the GHS.

BIOSAN is classified as Dangerous Goods according to the ADG Code (7th Ed).

BIOSAN is a Scheduled Poison according to the SUSMP.

Avoid contact with eyes and skin. Avoid release to environment. Do not breathe dust. Refer to SDS for further information.

FIRST AID INFORMATION

If poisoning occurs contact a doctor or **Poisons Information Centre Australia, Phone 13 11 26**. If swallowed do NOT induce vomiting. Wash out mouth thoroughly with water and seek immediate medical attention. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. If on skin, remove contaminated clothing and wash affected area with running water. Seek immediate medical attention.
