

BLEACH SACHETS

Bleach Powder Sachets

FEATURES

- 0.2% of available chlorine
- Easy to use
- Rapid disinfection
- Long shelf-life
- Convenient and stable source of chlorine

AREAS OF USE

- Institutional

DESCRIPTION

BLEACH SACHETS provide a safe and simply disinfecting agent for cleaning and sanitising the exterior and interior of syringes. BLEACH SACHETS feature a long shelf life, showing minimal chlorine loss after more than one year of storage. They come in individual 6g sachets, which provide 0.2% of available chlorine when diluted in 200mL of water.

DIRECTIONS FOR USE

Dilute one sachet in 200mL of water to provide 0.2% (w/v) available chlorine. Further instructions are provided on the outside of each sachet.

Consult your Jasol representative for further information.

SAFETY INFORMATION

BLEACH SACHETS are classified as Hazardous according to the GHS.
BLEACH SACHETS are classified as Dangerous Goods according to the ADG Code (7th Ed).
BLEACH SACHETS are NOT a Scheduled Poison according to the SUSMP.
Avoid contact with eyes and skin. Refer to SDS for further information.

FIRST AID INFORMATION

For advice in an emergency, contact **Poisons Information Centre Australia (Phone 13 11 26)** or **a doctor at once**. If swallowed, do NOT induce vomiting. Wash out mouth thoroughly with water. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. If on skin, remove contaminated clothing and wash affected area with running water. Seek immediate medical attention.
