

PROTREAT 362

Non-Oxidising Biocide

41 – 45 Tarnard Drive, Braeside, VIC 3195
131 Garling Street, O'Connor, WA 6163
Telephone: 1800 334 679
A division of George Weston

FEATURES

- Broad spectrum activity
- Effective over a wide range of conditions
- Compatible with all PROTREAT products
- Effective at low concentrations
- HALAL approved

AREAS OF USE

- Cooling towers
- Recirculating cooling systems
- Process cooling
- Industrial radiator systems
- Refrigeration systems

DESCRIPTION

PROTREAT 362 is a high-performance broad spectrum bronopol based biocide recommended for use in industrial cooling systems, cooling towers, air scrubbers and paper-mill waters. It is effective at a very low concentration against the growth of algae, bacteria and fungi. PROTREAT 362 is particularly used to control *Legionella pneumophila* outbreaks when slug-dosed to contaminated systems and as an on-going treatment when dosed to clean systems on a continuous basis.

DIRECTIONS FOR USE

PROTREAT 362 may be added to systems on a regular one-shot basis, but for optimum results it is recommended that additions be made on a pre-set automatic continuous dosing basis. PROTREAT 362 concentration levels will vary upon the extent of microbial contamination and characteristics of the system water. Levels are controlled by microbiological testing.

Please, consult your Jasol representative for assessment before use.

SAFETY INFORMATION

PROTREAT 362 is classified as Hazardous according to the GHS.
PROTREAT 362 is classified as Dangerous Goods according to the ADG Code (7th Ed).
PROTREAT 362 is NOT a Scheduled Poison according to the SUSMP.
Avoid contact with eyes and skin. Do not breathe vapour or mist. Refer to SDS for further information.

FIRST AID INFORMATION

For advice in an emergency, contact **Poisons Information Centre (Phone Australia 13 11 26) or a doctor at once**. If swallowed do NOT induce vomiting. Wash mouth thoroughly with water and seek medical attention. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. Seek immediate medical attention. If on skin, remove contaminated clothing and wash affected area with running water. Seek medical attention if irritation persists.
