For further information regarding product safety and handling, refer to the Safety Data Sheet and product label.

DESCRIPTION

SANITOL BLEACH SACHETS safely and simply provide a disinfecting agent for cleaning and sanitising purposes of hard surfaces. They contain 62% chlorine, which is one of the highest commercially available strength. SANITOL BLEACH SACHETS feature a long shelf life, showing minimal chlorine loss after more than one year of storage. It comes in an individual 8g sachet, which provides 100ppm of chlorine when diluted in 50L of water.

DIRECTIONS FOR USE

Dilute one sachet in 50L of water to achieve 100 ppm of chlorine.

Consult your Jasol representative for further information.

SAFETY INFORMATION

SANITOL BLEACH SACHETS are classified as Hazardous according to the GHS. SANITOL BLEACH SACHETS are classified as Dangerous Goods according to the ADG Code (7th Ed).

SANITOL BLEACH SACHETS are NOT a Scheduled Poison according to the SUSMP. Avoid contact with eyes and skin. Refer to SDS for further information.

FIRST AID INFORMATION

For advice in an emergency, contact **Poisons Information Centre (Phone Australia 13 11 26) or a doctor at once**. If swallowed do NOT induce vomiting. Wash mouth thoroughly with water and seek medical attention. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. Seek immediate medical attention. If on skin, remove contaminated clothing and wash affected area with running water. Seek medical attention if irritation persists.
