DESCRIPTION

TITAN TOBACCO NEUTRALISER is an air freshener that not only masks the source of unpleasant odours but neutralises the contaminated surface or area. It has been tested in the most densely affected areas of cigar and pipe residual smoked rooms with exceptional success.

DIRECTIONS FOR USE

Depending on the contamination of the area, a usual dilution would be 1:5 (165mL to 1L of water) or 82.5mL to a Jasol Spray Bottle. For best results spray onto porous surfaces, such as curtains, carpet and unpainted brick. Leave the room as soon as possible after spraying to avoid the concentrated release of the air freshener.

Consult your Jasol representative for further information.
