JASOLVE C100-G

Non-Oxidising Biocide

FEATURES

- Broad spectrum activity
- Effective over a wide range of conditions
- Effective at low concentrations

DESCRIPTION

JASOLVE C100-G is a high-performance broad spectrum microbiocidal bactericide, fungicide, algicide and slimeicide recommended for treatment of industrial cooling water systems and pulp and paper mills.

Active Ingredient: 2,2-dibromo-3-nitrilopropionamide.

DIRECTIONS FOR USE

The dosage rates for JASOLVE C100-G will depend upon a number of factors, including the type and volume of the system being treated and initial hardness of water.

For assessment before use, please consult your Jasol representative.

AREAS OF USE

- Cooling towers
- Recirculating cooling systems
- Process cooling
- Industrial radiator systems
- Refrigeration systems

SAFETY INFORMATION

JASOLVE C100-G is classified as Hazardous according to the GHS.

JASOLVE C100-G is classified as Dangerous Goods according to the ADG Code (7th Ed).

JASOLVE C100-G is NOT a Scheduled Poison according to the SUSMP.

Avoid contact with eyes. Avoid release to environment. Refer to SDS for further information.

FIRST AID INFORMATION

For advice in an emergency, contact **Poisons Information Centre (Phone Australia 13 11 26) or a doctor at once**. If swallowed do NOT induce vomiting. Wash mouth thoroughly with water and seek medical attention. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. Seek immediate medical attention. If on skin, remove contaminated clothing and wash affected area with running water. Seek medical attention if irritation persists.
