- Broad spectrum activity
- Breaks down the toughest food stains
- Highly concentrated

AREAS OF USE

- Hospitals
- Nursing Homes
- Hotels & Motels
- Institutions
- Food Preparation Areas
- Restaurants
- Canteens

DESCRIPTION

STERICHLOR is a chlorinated general purpose cleaning powder. It is effective for the removal of grease and fat soils from hard surfaces, shower recesses, toilet bowls, tiled areas, floors and walls. Chlorine released when STERICHLOR is dissolved in water is effective for the removal of stains, deodorising and sanitising.

DIRECTIONS FOR USE

Immersion cleaning/bedpan sterilizing: Immerse equipment in a solution of 30-60g per 5L of warm or cold water for 5-10 mins. Thoroughly rinse with water after immersion.

Food preparation areas: Dissolve 60g in 5L of water, apply with a mop or cloth, and allow to act for 10-15 mins before rinsing with potable water.

Floor, walls: Dissolve 15-30g in 5L of water, apply with a mop or cloth and rinse with clean water.

Sinks, baths, shower recesses: Wet the surfaces to be cleaned, sprinkle on a little STERICHLOR and allow to act for 10-15 mins. Rub over the surfaces and rinse off.

Consult your Jasol representative for further information.

SAFETY INFORMATION

STERICHLOR is classified as Hazardous according to the GHS.

STERICHLOR is NOT classified as Dangerous Goods according to the ADG Code (7th Ed).

STERICHLOR is a Scheduled Poison according to the SUSMP.

Avoid contact with eyes and skin. Do not breathe dust. Refer to SDS for further information.

FIRST AID INFORMATION

If poisoning occurs contact a doctor or **Poisons Information Centre Australia, Phone 13 11 26**. If swallowed do NOT induce vomiting. Wash out mouth thoroughly with water and seek immediate medical attention. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. If on skin, remove contaminated clothing and wash affected area with running water. Seek immediate medical attention.
