

Personal Protective Equipment

GHS Hazard Pictograms

Exclamation mark

Low level toxicity. This includes respiratory, skin, and eye irritation, skin sensitisers and chemicals harmful if swallowed, inhaled or in contact with skin.

Corrosion

Corrosive chemicals, may cause severe skin and eye damage and may be corrosive to metals.

Flame

Flammable liquids, vapour, solids and gases; including self-heating and self-igniting substances.

Flame over circle

Oxidising liquids, solids and gases, may cause or intensify fire.

Environment

Hazardous to aquatic life and the environment.

Health Hazard

Chronic health hazards; this includes aspiratory and respiratory hazards, carcinogenicity, mutagenicity and reproductive toxicity.

General First Aid Guide

INHALATION

Remove affected person from contaminated area and keep at rest in a position comfortable for breathing. Keep at rest until recovered. If symptoms develop and/or persist seek medical attention.

INGESTION

Do NOT induce vomiting. Wash/rinse out mouth thoroughly with water. Seek immediate medical attention.

SKIN

If on skin (or hair) remove/take off all contaminated clothing immediately. Wash affected area thoroughly with soap and water after handling. Wash contaminated clothing before reuse or discard. Seek medical attention. If skin irritation or rash occurs, please advise medical physician.

EYE CONTACT

Hold eyelids apart and flush the eyes continuously with running water. Remove contact lenses, if present and easy to do. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes. Seek immediate medical attention.

Exposure Risk Control Measures

Use Recommended Dispensing Methods

Always follow the dispensing method specified by the supplier. Avoid manual or free pouring of chemicals when a dispensing system is available.

No Eating, Drinking or Smoking

Do not eat, drink, or smoke near chemicals to avoid accidental ingestion or contamination.

Do Not Mix Chemicals

Mixing chemicals can cause hazardous reactions. Always keep them separate unless specifically directed to combine.

Wash Hands Thoroughly

Always wash your hands after handling chemicals, even if gloves were worn.

Store Chemicals Safely

Store chemicals securely and away from incompatible products, food, or personal-use items. Avoid placing them next to, above, or below such items.

Keep Containers Tightly Closed

Ensure chemical containers are sealed properly when not in use to prevent leaks, spills, or contamination.

Ensure Adequate Ventilation

Work in well-ventilated areas to prevent the build-up of hazardous fumes or vapours.

Use and Inspect PPE

Wear appropriate personal protective equipment (PPE) and inspect it regularly for signs of wear and tear. Replace damaged items promptly.
