Sour Finishing Agent for Laundry Systems

FEATURES

- Ideal for automatic laundry feed systems
- Conditioning effect
- Suitable for industrial use
- Suitable for use on all fabrics

AREAS OF USE

- Commercial & industrial laundries
- On premise laundries
- Nursing homes
- Hotels & motels

DESCRIPTION

OXALIC ACID is a sour conditioning powder designed for use in commercial laundries for removing iron (rust) stains or yellowing of laundry caused by iron deposition from the water supply. OXALIC ACID is suitable for all fabrics including cottons, poly cottons, polyester, silk and wool. It is also recommended for laundering all types of linen including uniforms worn in food processing establishments.

DIRECTIONS FOR USE

Use at **5-10g/kg** of dry weight linen. Add to the washing machine in warm to hot (65-70°C) water during a separate wash programme to remove heavy iron stains in clothing. Agitate for approx. 10 minutes. Rinse three to four times.

Consult your Jasol representative for further information.

SAFETY INFORMATION

OXALIC ACID is classified as Hazardous according to the GHS.

OXALIC ACID is NOT classified as Dangerous Goods according to the ADG Code (7th Ed).

OXALIC ACID is classified as a Scheduled Poison according to the SUSMP.

Avoid contact with skin. Do not swallow. Refer to SDS for further details.

FIRST AID INFORMATION

If poisoning occurs contact a doctor or **Poisons Information Centre Australia, Phone 13 11 26.** If swallowed do NOT induce vomiting. Wash out mouth thoroughly with water and seek immediate medical attention. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. If on skin, remove contaminated clothing and wash affected area with running water. Seek immediate medical attention.
