

Jasol Fresh Produce Hygiene Range

We care...about keeping Australian communities safe and clean.

About Jasol

Our Brand

We live in a world where hygiene is often taken for granted. But just imagine a world without hygiene standards - where food safety is compromised, where the most vulnerable members of our community are at even more risk.

With over 90 years of experience in local hygiene solutions, whether it's cleaners, sanitisers, or disinfectants, Jasol always delivers to the highest quality for the good of Australia.

But it's not just about what we do, it's about why we do it. It's because we have a responsibility to protect our communities and our environment. From food manufacturing to childcare, age care homes to supermarkets, hotels to dairy processing and the communities we live in, maintaining high cleaning standards not only ensures our safety and wellbeing, it means we use less water, energy and time - reducing waste and our greater environmental impact.

And as diseases and pathogens continuously adapt and evolve, so must we. That means knowing that innovation thrives in spaces where every voice is heard, valued, and respected, and always doing things the right way, even when it's tough.

Jasol is a collaborative community that embodies expertise and commitment, trusting relationships with partners who share our vision. Together, we care about creating a safer, cleaner tomorrow for all Australian communities.

Our Values

Safety

As leaders in quality, accessible and reliable hygiene solutions, we understand our responsibility to the communities that engage us, and the impact we can have on their lives. Our unwavering passion for protection extends an exceptional level of care and safety to our employees, our customers and the local communities.

Courage

Innovation takes ambition, and our determination to continuously find new and better solutions for our people, pushes us forward. Believing in a 'do it once, do it right' attitude gives us the power to take action, make bold decisions and do the right thing, even if it isn't always the easy thing.

Trust

Connections are the currency of our industry, and we know that only through building trust and relationships with like-minded partners, can we achieve our collective goals. We foster strong, supportive, ongoing partnerships, bringing together great people who share our values.

Collaboration

We value input from everyone we work with, be it colleagues or partners. We know when we bring together the diverse skills, perspectives and experiences of a wide team, we can truly spark creativity and innovation.

Product Range

SURFACE SANITISERS

ALCODIS

Alcohol based no rinse sanitiser

ALCODIS is an ideal sanitiser for areas in which water cannot or should not be used. The product is used as supplied providing effective sanitation to pre-cleaned surfaces. It evaporates upon application leaving the surface free of water.

EC1 - CLEANER SANITISER

Dual chain QUAT general purpose cleaner and sanitiser

Jasol's Environmental Choice EC1 is a convenient all in one cleaner and sanitiser that is highly effective in both soft and hard water. It is fragrance free, making it ideal for food processing and preparation areas.

EC2 - NO RINSE SANITISER

Dual chain QUAT no rinse sanitiser

Jasol's Environmental Choice EC2 is a highly effective no rinse sanitiser. Its chlorine free, non-perfumed formula is suitable for use in all food processing areas.

C5 - HD LIQUID SANITISER

Chlorinated alkaline cleaner and sanitiser

C5 HD LIQUID SANITISER is an alkaline cleaner containing chlorine for cleaning and sanitising cutting boards. Thanks to its excellent wetting properties the product penetrates into the smallest cutting marks. The alkaline components of the formula readily saponify fat and grease. The chlorine content ensures a bacteria free surface.

SANTEC

Quaternary ammonium compound (QAC) no rinse sanitiser

Once surfaces are clean, SANTEC keeps them that way. Applied at 200 – 400 ppm via spray, it forms a protective barrier on hard surfaces that remains effective for elongated time in an open environment. As a no-rinse sanitiser it fits seamlessly into the end of any cleaning cycle, with no additional steps or downtime required.

Product Range

SURFACE SANITISERS cont.

SODIUM HYPOCHLORITE 12.5%

Chlorinated sanitiser

SODIUM HYPOCHLORITE 12.5% is a concentrated sanitiser for use in CIP and food processing areas. It is suitable for floors, walls, tables, vats, conveyors, ovens, tanks and mixers.

SANITISER O2

Peracetic acid-based sanitiser

For sites requiring a peracetic acid-based sanitiser, SANITISER O2 offers excellent broad spectrum efficacy with a clean environmental profile, breaking down to acetic acid and water with minimal residue.

SANITISER O6

Peracetic acid-based sanitiser

Where a stronger peracetic acid-based sanitiser is required, SANITSIER O6 is ideal. A more concentrated version of SANITISER O2, this product is an ideal solution for increased use rates of sanitiser while maintaining a clean environmetal profile, breaking down into acetic acid and water with minimal residue.

TITAN NO RINSE SANITISER

Ready to use alcohol based sanitiser

TITAN NO RINSE SANITISER is a highly effective sanitiser that can be used on food contact surfaces. The No Rinse formula for safe use around the house, kitchens, restaurants, offices and industrial areas. It is an ideal sanitiser for areas in which water cannot or should not be used. Applied to pre-cleaner surfaces it evaporates upon application leaving the surfaces sanitised and free of water.

Product Range

FOAMING SANITISERS

CHLORFOAM

Chlorinated foaming cleaner and sanitiser

CHLORFOAM is a gel-based chlorinated foaming cleaner containing a unique blend of surfactants, alkalis and chlorine to simultaneously clean and sanitise food processing areas. Suspension agents and alkaline components of the formula allow for rapid penetration and removal of protein, blood and fat soils preventing their re-deposition. Bleach capacity ensures a bacteria free surface.

HYPOFOAM

Chlorinated alkaline foaming cleaner and sanitiser

Where other cleaners struggle, HYPOFOAM delivers. A chlorinated Alkali formula with a stable foam profile that clings to vertical surfaces and hard-to-reach areas, maximising contact time where it matters most. The alkaline base breaks down rendered fats and heavy grease, while the chlorine component cuts through stubborn protein deposits, dried blood and biofilm. The result is a genuinely clean surface and sanitised surface, not just a rinsed one.

CCF-5

Heavy duty chlorinated foam cleaner and sanitiser

CCF-5 is a low viscosity well-balanced formulated product, ideal for removing fat, oil and protein soils and most food residues from stainless steel surfaces, conveyor belts and most materials found in a modern food production facility.

Product Range

FOAMING SANITISERS cont.

PROFOAM

Foaming cleaner and sanisiter

Where chlorine-based products are a problem, PROFOAM is an ideal alternative. A high foaming cleaner sanitiser for use in all food preparation and storage areas. It exhibits excellent grease and protein removal properties. PROFOAM contains Quaternary Ammonium Chloride (QAC) compound for effective for washing and sanitising in food processing areas.

HYPOSAFE-SG

Chlorinated alkaline foaming cleaner with corrosion inhibitor

HYPOSAFE SG is a superior alternative to HYPOFOAM, safe soft metal surfaces including aluminium. It has a built-in corrosion inhibitor while still being able to provide rapid penetration and removal of stubborn proteins and fats.

MULTIPURPOSE CLEANERS

ECO MANUAL DISHWASHING DETERGENT

Manual Dishwashing Detergent

Jasol's Environmental Choice ECO is a highly effective dishwashing detergent cutting through the toughest of grease and food stains in both soft and hard water.

MULTIKLEEN

Universal Cleaner and Degreaser

MULTIKLEEN is an economical, powerful, universal cleaner and degreaser for general cleaning of inert surfaces. It is formulated with water conditioners, non-flammable solvents and synthetic detergents. It can safely be used on metal surfaces, woodwork, tiles, fabrics, rubber, plastics and painted surfaces.

Product Range

HAND HYGIENE

INSTANT HAND SANITISER

70%(v/v) Alcohol-based hand sanitiser

Fast-acting, fragrance-free alcohol-based hand sanitiser for use at entry points in addition to handwashing and throughout the facility or where sink access isn't immediately available.

SAFE HANDS

Food safe, solvent free handwash

SAFE HANDS is a heavy duty, solvent free hand cleaner for use in food processing areas. It has been formulated to be gentle on skin with additional moisturisers ideal for high-frequency handwashing. It is fragrance free and food production safe. SAFE HANDS contains biocides to kill germs.

SAFE-T-GUARD

Alcohol-free foaming hand sanitiser

A foaming hand sanitiser alternative for facilities that prefer foam dispensers and non-alcohol option. Its gentle formula makes it suitable for high-frequency touchpoints. Fragrance free and food production safe.

ADVANCE FOAM SOAP

Non-perfumed foaming handwash

ADVANCE FOAM SOAP is a foaming hand soap of neutral pH which has been formulated with a combination of mild surfactants, emollients and moisturisers. It provides gentle clean and supports healthy skin.

EC6 ANTIBACTERIAL FOAMING HANDWASH

Foaming antibacterial handsoap

A gentle but effective fragrance-free antibacterial foam soap for frequent use at wash stations. Fragrance free and formulated to be kind to skin during repeated washing. It has high bacterial activity (kills 99.9999% of germs).

Product Range

SPECIALITY PRODUCTS

SANICRUNCH

QUAT based granular sanitiser

SANICRUNCH is a solid alternative that does not require downtime to function. In its granular form it releases active ingredients as it comes into contact with water and dissolves, allowing for long term sanitation of drains and floors. SANICRUNCH deodorises drains and keep germs and bugs away.

MANGO WASH

Mango desapping powder

MANGO WASH is odorless white powder, formulated to be used as pre-soak of fresh cut mango fruits to eliminate any sap which exudes from mango stems, thus reducing sap burn, blemishes and fruit skin discolouration.

FRUIT WASH

Chlorinated fruit sanitiser

FRUIT WASH is a chlorine based sanitiser that can be dosed at 200-400ppm to wash fresh fruit and vegetables to ensure they are santised appropriately.

FRUIT WASH PLUS

Chlorinated fruit sanitiser

A concentrated version of FRUIT WASH means lower use rate to achieve the same ppm for fruit washing requirments

MULTIZYME LS

Enzymatic drain cleaner

Fats, proteins and organic solids accumulate quickly in drains and create persistent blockages and odour. MULTIZYME's blend gets to work where mechanical cleaning can't reach, digesting fat, protein and starch deposits deep within drain lines. Apply neat at the end of the day and let it work overnight. Drains will remain cleaner, freer-flowing and significantly less odorous. Consistent use keeps drainage infrastructure in good condition and reduces call-out costs. MULTIZYME LS is a neutral formula that is safe on all types of drains. Being enzyme-based MULTIZYME LS improves the longevity of your pipes when compared to using harsher chemicals. MULTIZYME LS is GECA (Good Environmental Choice Australia) approved.

Dispensing Solutions

In addition to our service to customers is to offer safe and simple dispensing solutions to suit every need. From waterfed dispensers to manual aids, we've got you covered.

Operators in hospitality, food service and facilities management can achieve precise chemical proportioning at the push of a button with the **ProMax** dispenser, a robust system available in one to four product configurations. Designed with safety front of mind, it connects directly to a water supply to deliver accurately diluted solutions without requiring operators to handle chemical concentrates.

Alternatively, we offer a range of manual dispensing systems such as;

- **5ml pelican pump** for 5L bottles - suited for heavily concentrated products requiring more precise dilution
- **30ml pelican pump** for 5L bottles - suitable for most products
- **Tap n Cap** - providing a smooth flow for higher concentrate volumes
- **ProDose-R** - wall mounted and perfect for higher viscosity detergents
- **Multiflex Dispenser** - wall mounted for dispensing hand and body care products available in our 1L BW range
